

I Am the Ocean

Gretchen Bonea

I am the ocean

I reflect the atmosphere

I am the ocean

I cover 71% of the earth

I am the ocean

I am so vast and wide you can see me all the way from space

I am the ocean

I am home to between 700,000 and one million species

I am the ocean

My habitants are dying, polluted by your chemicals

I am the ocean

Where whales and fish used to swim now where plastic bags are set adrift

I am the ocean

In my seas between 200 and 2,000 extinctions occur each year

I am the ocean

My seas are strong, my waves fierce

I am the ocean,

My beauty is deep and my waters are clear

I am the ocean

I live in the ice, I live in the air, I live all around you

I am the ocean

When sunlight hits my dancing waves you stop and think and have to say

It would be sad if it all went away

I am the ocean
