

Share. Respect. Protect.

Daniel Walker

Sharing the Ocean each day of my commute,
With the seals, whales and fishes,
On the ferry I come,
To school I attend.
Respecting for the vast Ocean,
Its powerful waves, tides, and depth,
By practicing water safety,
And, learning of its importance.
Protecting its inhabitants, both human and marine life,
Eco-friendly, choosing not to pollute,
This essential part of our Earth,
As a student and community member.
